The problem is that as a government we cannot reach the people who are hungry, ignorant, and underprivileged. Our government has to work through the heads of the various states, and these people and the privileged of those areas represent only ten per cent of the population. We make the wealthy wealthier and In some colleges four hundred stu-

AN EFFECTIVE PLAN

The plan to stop this communist expansion is not complicated, though it will require much work and a bit of money. They have 100,000 missionaries selling their philosophy in these nations. We must more than match that figure.

We must do more than exceed the number. Ours must be better than theirs and we must give more.

Dr. Laubach says that technical experts are needed to show these people how to live. To do this he has formed the Army of Compassion. To become a part of this, one hundred members of a church give one dollar a week. This will provide \$5,200 a year, enough to finance a technical expert on foreign soil, or to train one of their own people to instruct his countrymen.

Through our past mistakes we have made their lot worse. We gave 🖠 them medical attention, wiping out many of the killing diseases, but we did not provide economic help. We have made it possible for nine children out of ten to survive birth as compared with the nine out of ten who once died at birth in these nations. Simple sanitation instructions accomplished this.

It also doubled their population in a decade. In another half decade the communists plan to make the most of our error.

Political observers, taking it more or less for granted that he has the nomination, will be looking in the weeks ahead to another index. They will want to see how Nixon runs against the leading Democratic candidates in the poll takers' samples. Recently a Stevenson-Kennedy ticket was matched against a Nixon-Rockefeller ticket and the result was 53 percent for the Democrats 5 percent undecided.

They have seemed to open the way to a new praised him for taking a firm but era of personal diplomacy. It was, temperate line; for maintaining his certain basic positions. For Nixon there is a further harvest in the Khrushchev-Eisenhower exchange. He will participate in at least some phases of the talks in Washington. The nominating convention is a year away and memories are short. That may be why a Nixon mission to Communist China about next February or March cannot be ruled out. Other politicians dream of confronting the Chinese dragon in its lair. But who, the Nixon idolators are asking, is better equipped to do this than our hero?

Sunday night Vice President Nixon NOVEMBER 28 -- Stratford players showed home movies over two netwill present two plays. "The works, NBC and CBS, and we all had

inevitable similarities in anyone's movies of his trip abroad, and the Vice President's were no exception. There were the shots of people's backs as they moved away from the camera toward the fair

grounds. There were entirely too many glimpses of arrivals and departures in various conveyances -people getting on and off airplanes are not very interesting -- and the narration was generally pitched in what you might call lantern slide prose: "And here we are on the steps of the Leningrad Library."

But, I must say, I was thoroughly gripped for the whole hour--half an hour on NBC with the Vice President live and then half an hour later on CBS with the Vice President on tape. Nixon was a thoroughly relaxed and candid host on these tours. His opinions had great bite and honesty. I was especially taken with Nixon's admission that Khrushchev would make a great American politician if he weren't a Communist: "He has vitality, the will to work, color, and he always stays on the offensive."

Earlier he had admitted wryly that you have to keep an eye on Khrushchev at all times. "He proposed a toast to eliminate American bases. I didn't drink that toast." The glimpses of life behind the Iron Curtain shot by CBS and NBC cameramen were, if anything, too few and skimpy. I am always struck by the emptiness of the streets in Moscow, a city of five million people, and these films were no exception. Moscow always looks a bleak and empty and uninviting spot. This feeling lessened when the films moved out of Moscow to the smaller cities where Russia assumes a more human aspect. There were some especially piquant footage showing Pat Nixon dancing with Russian children that won't do the Nixon cause any harm at the polls. It was

The Warsaw shots with the people shouting "Long Live America" was heartwarming and even a little startling. I belong to the same school as Nixon, who said that you're going to have to talk to the Russians unless you want to fight them. In other words, we have no other alternative. The more give and take, including film footage and tape footage and badinage between heads of state, the less chance of shooting.

Shakespeare in his "Comedy of Errors' wrote, 'There's no time for a man to recover his hair that grows bald by nature."

The same applies to teeth that are lost by nature, but the Warren Borough Council had a defense against such a loss which it wove into a comedy of its own. The handling of the fluoridation issue from the opening request by the Board of Health to the final vote by Burgess Rice, who was forced to break an eight-eight tie, would have been very amusing if it had not been so frightening and perhaps even tragic.

Council chose to listen to halftruths and innuendoes. It closed its ears to the voices of authority.

It quibbled about puny costs, that at first were non-existent, but which anyone who thinks certainly realized would be incorporated into operation costs, and thus be reof the water company's capital investment and its operation expenses. The law would require this.

The reason you do not hear much about vaccine right now is that the press does not wish to excite people any more than already has been done by the epidemic. The fact is we do not wish to have people lined up at the doctor's door.

A LAUBACH CLASS at Chautauqua visited the Warren Observer office last Thursday to learn about the offset printing process. These men and women come from all corners of the world where they are attempting to bring a better way of life to the underprivileged.

One of their problems is the cost of publishing magazines and papers in primitive areas. While some of them are so poorly equipped that their papers are composed by hand and their magazines limited to the size of Readers Digest, the communists are reaching the same people with large tabloid papers. Obviously these freedom fighters need help.

Second from the left is Robert Laubach, their teacher, who is the son of Dr. Frank Laubach, who spoke in Warren last Sunday. Mrs. Franklin Hoff at the left, and her husband, fifth from the left, are associated with Dr. Laubach in his efforts to help the world's illiterate.

PERSONS WANTING "first-day" covers containing the world's first soil conservation stamp should send addressed envelopes to the Postmaster, Rapid City, S.D., within the next few days.

The 4-cent, 3-color postage stamp in the commemorative series goes on sale in Rapid City August 26 at the annual meeting of the Soil Conservation Society of America.

The stamp will go on sale in local post offices August 27, the day following the issuance in Rapid City.

It was pointed out that the Rapid City Postmaster, upon request and receipt of the properly addressed envelopes and a remittance to cover cost of the stamps, will place the new soil conservation stamp on envelopes, cancel with a special cancellation mark used only on that day and at that place, and mail the envelopes on the first day of issue.

THE DEFEAT of the fluoridation ordinance by the tie-breaking vote of Burgess Rice brought smiles to the faces of these people who packed the council chamber and the adjacent hallways to express their fear of this method of dental decay prevention. We wonder how many false teeth, pivots, and fillings helped make up the smiles? More of the same to our descendants they said, in effect.

THE REFERENDUM VOTE is emphasized by William Bevevino who spoke against fluoridation at Monday's meeting of Warren borough council.

TOP HONORS. Allen L. Tuttle, AA, USN, recently completed his recruit training at the U. S. Naval Training Center, Great Lakes, Ill. Tuttle, the son of Mr. and Mrs. James E. Tuttle, 118 Grant st., Warren, is now stationed at the U. S. Naval Air Station, Memphis, Tenn., where he is attending the Aviation Machinist's Mate school.

One of these was the request for an earlier license sale date. It has been put into effect.

Another requested the lifting of the ban on the importation of rabbits in Pennsylvania for the restocking of depleted covers. Rabbits now may be purchased for this purpose.

The group also asked that politics be taken out of the employment of Game Commission employes. This has been placed on the agenda of the State Federation Officials when they meet in September.

These six resolutions were approved at a meeting in Forest county last spring. Three of them which have not progressed will receive more attention when the delegates meet August 16 in the home of Ed Palmers, at Lake City, near Erie Time, 2 p.m.
